Tinto Wools

Designed in England and woven in Scotland*, this collection epitomises British style. Woven in the lowlands of Lanarkshire, Scotland, near the hill and town of Tinto, these five wools give an innovative twist to traditional plaids, damasks and knitted patterns. The mix of natural marled wool yarns in subtle, glowing colours and natural linen yarns give contrast and texture to the designs.

* With the exception of Cairngorm which is woven in New Zealand.
